European Programme for Employment and Social Innovation ("EaSI")
Indicative Term Sheet for the EaSI Social Entrepreneurship Guarantee**

Important Disclaimer

This summary term sheet is for information purposes only. This document is an outline of the principal terms and conditions for the product described herein, which are subject to change and non-exhaustive.

This document is intended to provide a basis for discussions and does not constitute a recommendation, a solicitation, an offer or a binding commitment – either implicit or explicit – on the part of the European Investment Fund ("**EIF**") and/or of any other person to enter into one or more transaction(s). Any finance commitment by the EIF can only be made, inter alia, after appropriate approval, conclusion of legal due diligence and finalisation of the required legal documentation. The EIF does not act as adviser to you or owe you any fiduciary duty. The EIF does not make any representations or warranties (whether explicitly or implicitly) with respect to the information contained in this document. This document and any information contained therein may not be circulated and/or reproduced in part or in full without the prior written consent of EIF.

Objectives of the EaSI Social Entrepreneurship Guarantee Instrument

One of the aims of the European Programme for Employment and Social Innovation ("**EaSI**") is to support the development of the social investment market and facilitate access to finance for social enterprises by making equity, quasi-equity, loan instruments and grants up to EUR 500 000 available to social enterprises with either: (i) an annual turnover not exceeding EUR 30 million, or (ii) an annual balance sheet total not exceeding EUR 30 million, which are not themselves a collective investment undertaking.

EaSI shall, inter alia, be implemented through guarantees issued by EIF to Financial Intermediaries to cover partially the risk of portfolio of newly granted debt financing instruments (the "**Portfolio**") provided for the ultimate benefit of social enterprises (the "**EaSI Social Entrepreneurship Guarantees**") with the aim to encouraging Financial Intermediaries to provide loans or other debt financing with a nominal amount of up to and including EUR 500 000 . For this purpose, EIF will enter into Guarantee Agreements with Financial Intermediaries. The EaSI Social Entrepreneurship Guarantees are financed by the budget of the European Union and are issued by EIF in its own name, but on behalf of the European Union.

Intermediaries may apply to the Call provided that they are able to comply with the provisions, the selection criteria and eligibility criteria set out in the term sheet.

EIF provides partial credit risk protection on a portfolio of debt financing instruments deployed to eligible Final Recipients via a guarantee for the benefit of financial institutions, foundations, family

offices, social investment funds or other institutions duly authorised to provide loans/guarantees or risk-sharing structures according to the applicable legislation (the “**Financial Intermediary**”) providing debt financing directly to Final Recipients.

The origination, due diligence, documentation and servicing of the Final Recipient Transaction shall be performed by the Financial Intermediary in accordance with the agreed origination and servicing procedures.

Complementarity with other financial instruments

- Financial Instruments providing liquidity: the guarantees provided under the EaSI Social Entrepreneurship Guarantee will provide partial credit risk protection for a portfolio of Final Recipient Transactions. If Financial Intermediaries deem it necessary and if available to them, e.g. through national or regional programmes or through other institutions, they may combine the credit risk protection provided under the EaSI Social Entrepreneurship Guarantee with pure liquidity financial instruments supported through other sources;
- Financial Instruments providing partial credit risk protection: as indicated above, guarantees issued under the EaSI Social Entrepreneurship Guarantee Instrument will provide partial credit risk protection. If Financial Intermediaries deem it necessary and if available to them, e.g. through national or regional programmes or through other institutions, they may combine the credit risk protection provided under the EaSI Social Entrepreneurship Guarantee with an additional credit-risk protection instrument for such portfolio, provided that the combined credit-risk protection does not exceed 80% , with the exception further outlines in the Structure section of this term sheet.

The terms outlined in this term sheet will apply mutatis mutandis to counter-guarantees. Due to the specifics of counter-guarantees, some additional requirements or adaptations of the terms of this direct guarantee term sheet (including in relation to the eligibility criteria and requirements applicable at the level of the Financial Sub-Intermediaries) will be added to the counter-guarantee agreement.
